

The Azalea Society of America is honored to present

THE DISTINGUISHED SERVICE AWARD

to

Sandra F. McDonald, Ph.D.

For over thirty years, you have volunteered your talents and technical expertise in support of the goals of the Azalea Society of America. You are an accomplished hybridizer whose many azalea introductions grace private and public gardens. You are a prolific author who has written many excellent articles. You transcribed Henry Skinner's hand-written notes from his 25,000-mile excursion studying native azaleas and developed an outstanding illustrated reference for researchers. For this and your many other contributions to the Azalea Society we take great pride in awarding you the Distinguished Service Award.

Awarded this 14th day of April, 2026
